EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with S. McCue on 11/29/06.

The application has been amended as follows:

Claim 9 has been cancelled.

In claim 16, lines 8 and 12, before "recovery", --liquid-- has been inserted.

The following is an examiner's statement of reasons for allowance: With respect to claims 14, the prior art does not disclose nor render obvious the claimed combination, particularly a handle pivotally connected to the base assembly and a suction nozzle selectively mounted to said base assembly and usable in both an attached position and a detached position for cleaning said surface. With respect to claim 16, the prior art does not disclose nor render obvious the claimed combination, particularly a handle movably connected to the base assembly wherein said handle is placed in a position such that the cleaning apparatus can be used as a hand held cleaning machine, a liquid recovery tank and a suction nozzle selectively mounted to said base assembly and usable in both an attached position and a detached position for cleaning said surface. The patent to Bass et al was the closest prior art and Bass et al. is a hand-held vacuum cleaner for removal of dry particulate only. To use Bass et al. to vacuum liquid would destroy the device of Bass et al.

Art Unit: 1744

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
